Insp3ct0r

When we click on the link, it takes us to a simple web page.

Inspect Me

What	How

What

I made a website
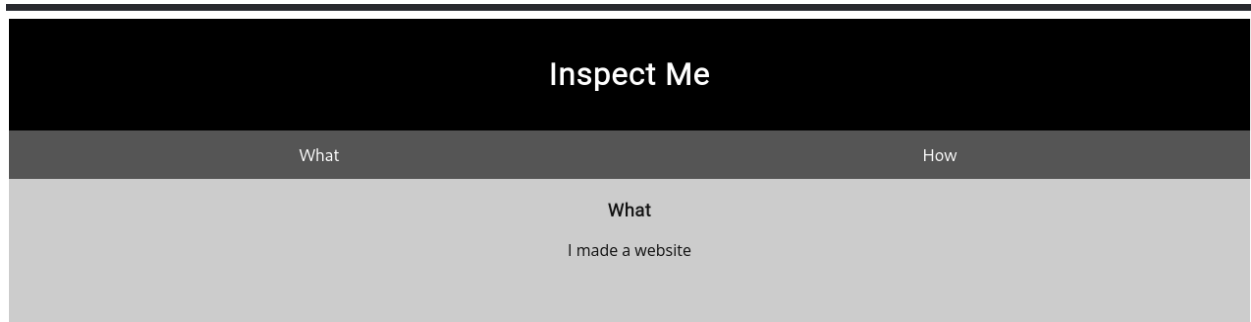

It says inspect me, so that's what I did. While checking the source code I find the first part of the flag.

```
30      </p>
31      <!-- Html is neat. Anyways have 1/3 of the flag: picoCTF{tru3_d3 -->
32      </div>
```

Then, I checked the '*mycss.css*' file, suspecting that additional parts of the flag might be located there. As anticipated, I discovered the second part of the flag within the contents of the file.

```
/* You need CSS to make pretty pages. Here's part 2/3 of the flag: t3ct1ve_0r_ju5t */
```

And finally,I found the last part of the flag in the '*myjs.js file*'

```
/* Javascript sure is neat. Anyways part 3/3 of the flag: _lucky?832b0699} */
```
